## SUMMARY

I am a self-driven Individual determined to use my passion for technology and programming to create impactful advancements within the continent of Africa, as well as plan and ensure its availability to the widest range of people. Currently pursuing a Bachelors degree in Software Engineering at the African Leadership University.

## EDUCATIONAL BACKGROUND

**African Leadership University – Pamplemousses, Mauritius & Kigali, Rwanda** **September 2019 – February 2022**

**Certificate of Higher Education in Computing**

*Relevant Coursework: Entrepreneurial Leadership; Data and decisions; Projects; Programming with Java; Intro to Networking; Fundamentals of Software engineering; Database Design; Web Platform Development; Maths for Computing.*

**Moringa School - Nairobi, Kenya**

**Software Engineering Diploma**

**January - August 2023**

*Professional course completion certificate includes; Programming fundamentals, Full-Stack Web Development and involves languages such as HTML5, CSS3, JavaScript, React, Flask, Python.*

## PROFESSIONAL WORK EXPERIENCE

**Junior Software Developer - Moringa School, Kenya**

**February 2023 - August 2023**

- Developed contemporary, dynamic, and effective web applications with other junior developers that carry out specific tasks and handle real world issues.
- Participated in code reviews, debugging, and testing to maintain code quality and performance
- Collaborated with team members to design and implement web services and APIs, ensuring a smooth integration with front-end components.

**Data Management Intern - Emboo Camps, Maasai Mara, Kenya**

**May 2024 - September 2024**

- Working as part of a diverse, international, and highly skilled team that shares a common vision, I was able to support management with the data collection and monitoring of it's operational aspects, including measuring use of fresh and recycled water, harvests from the hydroponic gardens, transportation of guests, et cetera.
- Assisted the Emboo River's operations team with the applications, any follow up activities and implementation.
- Managed online dashboards such as Emboo's Carbon Calculator, Baotree and Weeva, and set up in APIs.

**Virtual Assistant - Remote**

**February 2025 - April 2025**

- Provided administrative and operational support to a busy entrepreneur, streamlining daily tasks and improving efficiency.
- Managed complex calendars, scheduled appointments, and coordinated domestic and international travel arrangements, resulting in a 10% reduction in scheduling conflicts.
- Proficiently utilized G Suite (Gmail, Calendar, Drive, Docs, Sheets, Slides), Trello for project management, and Hootsuite for social media scheduling.

## EXTRACURRICULAR ACTIVITIES

**Group Founder - YES Club (Young Entrepreneurial Society), Temple School, Nigeria**

**May 2017 - March 2018**

- Assembled a crew of five to serve breakfast to staff and pupils who had to leave their homes extra early to beat traffic.
- Made myself accountable for all financial records and was eventually elected as treasurer of the group.

**ICT Lab Assistant - Temple School, Nigeria**

**September 2019 - May 2020**

- Assisted classmates in preparing for the IGCSE exams by tutoring on Microsoft Suite products.
- Facilitated all make up tests and exams of KS3 students for an academic year.
